Stig of the Dump

Barney arrived at the cave as Stig waited for him outside. Barney waved hello and they both walked straight into the dense forest. When they went deeper in the forest, they ran and scrambled through the woods. As they were running, they saw a cute rabbit with fluffy fur. They started to explore the woods and they saw gnarled trees high in the sky with great big light green leaves. They looked up and saw huge birds flying in the treetops. The forest was muddy and eerie because the huge branches of leaves covered up the sun.

Suddenly, they froze with fear when a strong breeze rushed past them. They heard a bird squawking at them loudly. They were so scared so Stig and Barney hid behind a tree. Suddenly they heard leaves crunching on the dirty floor. Barney went to look what was happening but then CRACK! Barney and Stig ran to the cave to hide. Stig blew out the fire so it would be dark. They waited and waited. They felt terrified and didn't know what to do.

Suddenly the cave rumbled and there was an enormous thud at the back of the cave. Stig went to check it out and the back of the cave was broken apart by a BIG BROWN BEAR! They rushed out of the cave while the brown bear chased after them.
