

Where is the Arctic  
and the Antarctic?

Where are the  
lines of latitude  
and longitude?

Where is the  
equator?

Why are they  
significant?

What are  
resources and  
where do they  
come from?

What does  
'sustainable'  
mean?

What is the impact of environmental  
changes on the planet?

Why is Earth hot in  
some places and cold  
in others?

*Mini-project:*

*Firebird*

*How do artists use collage  
to create an effect?*

# Our Iceberg is Melting!

Year 5

Autumn 2

Antarctic	polar bear
Arctic	pollution
blizzard	predator
carbon footprint	prey
change	prophecy
climate	recycle
equator	reduce
equipment	resources
glacier	reuse
habitat	region
hemispheres	sustainability
igloo	temperature
industry	Tropic of Cancer
journey	Tropic of Capricorn
latitude	water
longitude	wind chill
