

All Creatures Great and Small Y4 Summer 1

Why can we move?
How do artists portray
animals with paint?

What is nutrition
and why is it
important?

How do humans
digest food?

Why do animals
have skeletons?

How can we
investigate the
strength of different
bones?

How and why are
living things
grouped?

What are
classification keys?

Can we use
white, grey and
black paint to
colours to
create hues,
tints, tones and
shade?

All Creatures Great and Small

Project Vocabulary

apex	muscles
bones	nutrients
canines	nutrition
conservation	organs
density	predator
diet	prey
entomology	producer
environment	protection
food chain	shade
function	skeleton
habitats	strength
healthy	support
hue	teeth
incisors	tint
joints	tone
molars	wildlife
movement
